

## Cancer Care Review

Thank you for recently attending your Cancer Care review appointment at the surgery.

Part of the new cancer strategy is that healthcare providers should be working towards patients having a cancer care review within six months of diagnosis or treatment at your GP surgery. Your surgery is taking part in a pilot project to deliver cancer care reviews via a Macmillan Primary Care Nurse. We are keen to understand if you found the review beneficial and how we can make any improvement to the cancer care reviews for patients.

We would appreciate you taking a few minutes to complete the following questions. Your responses will form part of a report to evaluate the service and future service planning. Enclosed is a stamped, addressed envelope to return the completed survey.

All responses are **anonymous** and we won't ask for any personal information specifically.

If you have any queries please contact Sharon Huntley, Macmillan Primary Care Nurse at your GP surgery. Contact details are above.

- 1. Did you receive any information at the Cancer Care Review you had not previously had?** (such as potential signs and symptoms of reoccurrence, tips on how to manage your care etc.).

Yes                       No                       Not sure
