## 1 Purpose

The Operational Scheme of Delegation is derived from the Scheme of Reservation and Delegation incorporated within the Constitution, and sets out the **lowest level** that day to day operational decisions are delegated to or defines delegated limits where appropriate.

## Order of delegation

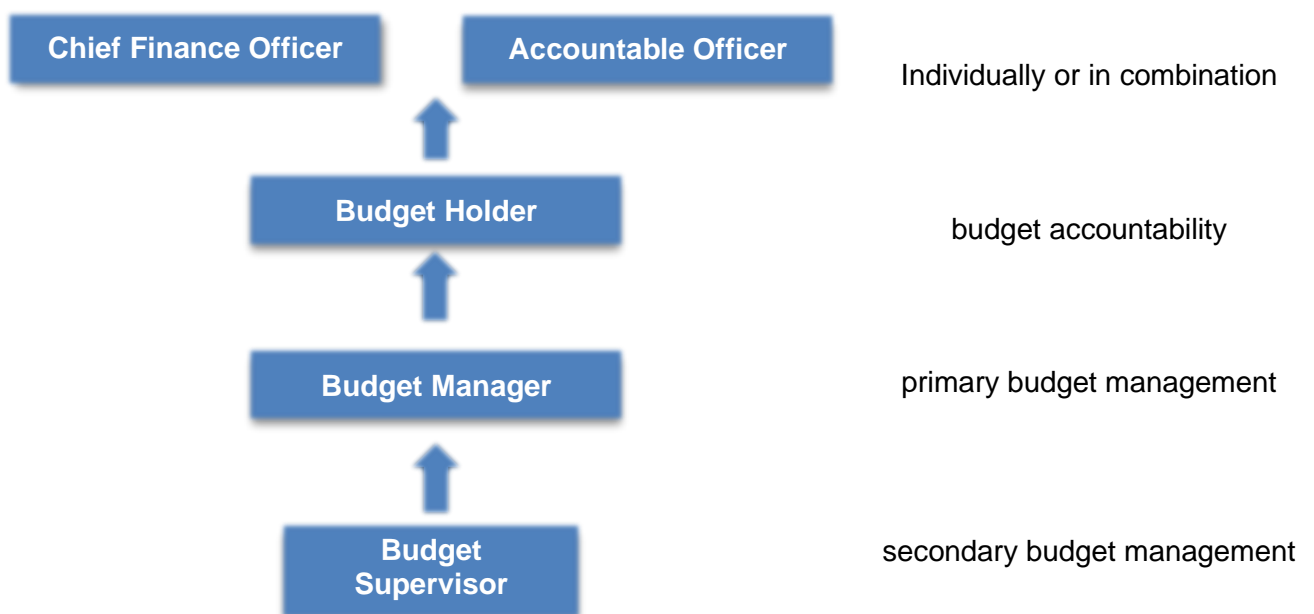

Maximum limits are stated within this document however delegation will follow limits set within the Oracle finance system user hierarchy.

All financial limits are subject to sufficient funds being available.

## Deputising arrangements

Deputising arrangements are covered by reverting to the next level up in the structure hierarchy, rather than delegating further down the structure.

However in the case of the Accountable Officer, Chief Finance Officer and Budget Holders (Directors) the Accountable Officer can designate in writing for a fixed period a named individual to deputise, in full or in part.

## Key associated documents

This document forms a key element of NHS Leeds Clinical Commissioning Group's (the "CCG") financial management and control environment and should be read in association with the following:

[Budgetary Control Framework](#)

[Procurement Policy](#)

[Governance Handbook - Prime Financial Policies](#)

## 2 Key budgetary terms

<b>Admin / Running Costs</b>	<p>Expenditure on activities which are not deemed direct frontline healthcare service provision for example, but not limited to:</p> <ul style="list-style-type: none"> <li>• employee costs</li> <li>• expenditure on accommodation, including rent, rates and maintenance; and</li> <li>• expenditure on comparable contracted-out services (including some consultancy costs)</li> </ul> <p>Expenditure that does not fall within Admin budgets is known as Programme expenditure.</p>
<b>Budget</b>	<p>Specific sum of money allocated to carry out a specific plan within a given period of time. It expresses plans and intentions in resource and financial terms having regard for the quantity and quality of services to be given.</p> <p>Budgets prepared by Chief Finance Officer (CFO), on behalf of Accountable Officer (AO), at the start of each financial year allow performance and delivery to be managed and monitored.</p>
<b>Budget Book</b>	<p>The budget book presents the budgeted spending plans for the CCG's Admin and Programme activities as approved by the Governing Body; prepared on a cost centre basis for key Budget Holders and Budget Managers.</p>
<b>Budget Holder</b>	<p>In most circumstances the CCG's Budget Holders are the Executive Directors.</p> <p>Budgets are held by a single accountable person (a named Budget Holder as detailed in the Budget Book) who is responsible for running services or delivering specific objectives and is accountable for the associated spend.</p> <p>There can be several Budget Managers and Budget Supervisors who can carry out daily tasks on behalf of the Budget Holder <b>but the Budget Holder remains accountable for the budget.</b></p> <p>The Budget Holder is responsible for the approval of individual financial limits delegated to named Budget Managers and Budget Supervisors (Oracle 'Authorised Signatory' approval). These approval limits may vary between teams.</p>
<b>Budget Manager</b>	<p>In most circumstances the CCG's Budget Managers are Business Unit Portfolio Holders.</p> <p>The management of a budget may be delegated to a named Budget Manager(s) by the Budget Holder (as detailed in the Budget Book). In general, escalation is to the Budget Holder.</p> <p>Budget Managers are primarily responsible for day to day expenditure of CCG funds, answerable to the Budget Holder for the way in which those funds have been used.</p>
<b>Budget Supervisor</b>	<p>Day to day management of a budget may be further delegated at a more granular level to a named Budget Supervisor(s). In general, this role is the lowest level of authority; escalation is to Budget Manager.</p>
<b>Programme / Healthcare</b>	<p>Expenditure relating to the provision of healthcare services which directly support frontline patient care.</p>
<b>Virement</b>	<p>Transfer of funds from an unspent or underspent budget to another; within virement rules to allow greater financial flexibility in using available resources.</p>
